

Alexsei is a web-based platform that produces legal research memos on demand for lawyers, and leverages the latest advances in machine learning and natural language processing to make knowing the law easy and affordable.

Given the current global pandemic as a result of COVID-19, we at Alexsei have decided to help by producing and distributing covid-related memos free of charge to help lawyers during these uncertain times. We're calling this research series "COVID Research".

Here is a link to a memo addressing the following: [If a business has been temporarily shut down by the government, is that business obligated to continue to pay rent for their commercial premises?](#)
